Year One Maths Homework

This homework relates to Maths work covered in class. Children will be taught the strategy of "using number facts of ten" to make 10 and then "adding on the rest".

Calculate these sums:

1. Make ten with the second number.

2. Then, add on the rest to 10.

For example: $7+4=$ $7+3=10$ $10+1=11$

$6+5=$	$7+6=$
$8+6=$	$9+4=$
$7+5=$	$8+7=$
$6+9=$	$7+8=$
$8+4=$	$9+7=$

We expect your child to complete this task independently. Please see your child's class teacher if you have any further questions on this particular piece of homework or to find out how to provide additional support/extension work.

This homework is due back to school on Monday.
