Name_____

Year One Maths Homework

This homework relates to Maths work covered in class this week.

Children are learning the different ways to make 10 – we call this "number bonds" of 10. If children have difficulty with this, provide them with 10 objects and show your child how to group and record the objects into sets totaling 10 (e.g. 5+5, 7+3 etc).

Making 5					
0	1	2	3	4	5

Choose 2 numbers which make 10 when added together.
Write them down.

7 + 3 =10

Can you find any other ways to make 10?

5 + 5 = 10	

Unless otherwise stated, we expect your child to complete these tasks independently. Please see your child's class teacher if you have any further questions on this particular piece of homework or to find out how to provide additional support/extension work.

This homework is due back to school on Friday.
