

Year 2, Term 2A

Animals, including humans	
Programme of study	Learning Intentions
In this unit, children learn that animals, including humans, grow and reproduce, They can use ideas about feeding and growth and discuss ways to look after ourselves and to stay healthy.	I can say what I know about animals I will know what all animals need to stay alive. I will know that humans have different body parts I will know that to stay healthy we must have a varied and moderate diet.
End of Year Expectations	I can make plans for a healthy meal.
Pupils should be taught to: <ul style="list-style-type: none">notice that animals, including humans, have offspring which grow into adultsfind out about and describe the basic needs of animals, including humans, for survival (water, food, air)describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene	I will know that exercise is one way of keeping me healthy I will know that to stay healthy we must keep clean I will know that the mouth needs care and attention to keep it healthy I know animals, including humans, produce young and these grow into children and new adults.
Vocabulary	I can sequence the life cycle of an animal
<ul style="list-style-type: none">words and phrases relating to life processes <i>grow, growth, move, have young, reproduce, feed</i>words relating to health <i>diet, variety, germ, healthy, unhealthy, medicines, safety, exercise</i>words describing taste <i>salty, sweet</i>	I will know that babies and children need to be looked after while they are growing. I will know how to care for animals in our local environment
