

Name _____

Year Two Maths Homework

This homework relates to Maths work covered in class this week.

Look around your home. Find an object and estimate how many centimeters long you think it would be. Then use a ruler to measure how many centimetres long it really is.

A picture of the object I found:	My estimation	The correct measurement
Television	40 cm	48 cm

We expect your child to completely these tasks independently. Please see your child's class teacher if you have any further questions on this particular piece of homework or to find out how to provide additional support/extension work.

This homework is due back to school next FRIDAY.
