Year Two Maths Homework

This homework relates to Maths work covered in class this week.

Children are applying their knowledge of "number bonds of 10" to calculate sums using larger numbers..

Use "number bonds of 10" to complete these sums:

$4 + 6 = 10$ so $24 + 6 = 30$ and $154 + 6 = 130$		multiples of 10
---	---	--------------------

$128 + \underline{\quad} = 130$

$141 + \underline{\quad} = \underline{\quad}$

$189 + \underline{\quad} = \underline{\quad}$

$215 + \underline{\quad} = \underline{\quad}$

$373 + \underline{\quad} = \underline{\quad}$

$264 + \underline{\quad} = \underline{\quad}$

Write down all the "number bonds of 100":

0 + 100					50 + 50					100 + 0
---------	--	--	--	--	---------	--	--	--	--	---------

Unless otherwise stated, we expect your child to complete these tasks independently. Please see your child's class teacher if you have any further questions on this particular piece of homework or to find out how to provide additional support/extension work.

This homework is due back to school on Friday.
