Year Two Maths Homework

This homework relates to Maths work covered in class this week. Children are using 'repeated addition' to calculate multiples of 5.

Lots of Five

Turn the 'lots of 5' sum into a 'repeated addition' sum.
Split your number into 10s and 1s to help you calculate the answer.

$13 \times 5 =$

5×13

Split the 13 into numbers we can easily count.

10 2 1
10 2 1
10 2 1
10 2 1
10 2 1

Count the tens, then the 2s then the Ones...

10 2 1
10 2 1
10 2 1
10 2 1
10 2 1

$16 \times 5 =$

$11 \times 5 =$

$14 \times 5 =$

$20 \times 5 =$

$18 \times 5 =$

$25 \times 5 =$

$19 \times 5 =$

Unless otherwise stated, we expect your child to complete these tasks independently. Please see your child's class teacher if you have any further questions on this particular piece of homework or to find out how to provide additional support/extension work.

This homework is due back to school on Friday.
