Year Two Maths Homework

This homework relates to Maths work covered in class this week. Children are applying their knowledge of the 2, 5 and 10 'times tables' to answer simple algebraic ("missing number") multiplication and division problems.

Swap around the numbers to make 2 x and 2 ÷ sums

Remember to look for the pattern:

$2 \times 5 = 10$

$5 \times 2 = 10$

$10 \div 2 = 5$

$10 \div 5 = 2$

16 2 8

$\square \times \square = \square$

$\square \times \square = \square$

$\square \div \square = \square$

$\square \div \square = \square$

10 3 30

$\square \times \square = \square$

$\square \times \square = \square$

$\square \div \square = \square$

$\square \div \square = \square$

9 5 45

$\square \times \square = \square$

$\square \times \square = \square$

$\square \div \square = \square$

$\square \div \square = \square$

8 5 40

$\square \times \square = \square$

$\square \times \square = \square$

$\square \div \square = \square$

$\square \div \square = \square$

5 4 20

$\square \times \square = \square$

$\square \times \square = \square$

$\square \div \square = \square$

$\square \div \square = \square$

Unless otherwise stated, we expect your child to complete these tasks independently. Please see your child's class teacher if you have any further questions on this particular piece of homework or to find out how to provide additional support/extensionwork.

This homework is due back to school on Friday.
