Year Two Maths Homework

This homework relates to Maths work covered in class this week. Children are revising strategies to calculate adding 'near doubles'. There are a variety of methods to do this, but one way is to "double and then add/subtract to adjust" as required.

Adding 'near doubles'. Double a number, and then **add or subtract** 'to adjust'!

$7 + 5 =$

$\boxed{5} + \boxed{5} + \boxed{2} = \boxed{12}$

$5 + 6 =$

$\boxed{6} + \boxed{6} - \boxed{1} = \boxed{11}$

$10 + 11 =$

$\boxed{} + \boxed{} \boxed{} = \boxed{}$

$12 + 13 =$

$\boxed{} + \boxed{} \boxed{} = \boxed{}$

$15 + 16 =$

$\boxed{} + \boxed{} \boxed{} = \boxed{}$

$20 + 21 =$

$\boxed{} + \boxed{} \boxed{} = \boxed{}$

$25 + 26 =$

$\boxed{} + \boxed{} \boxed{} = \boxed{}$

$30 + 31 =$

$\boxed{} + \boxed{} \boxed{} = \boxed{}$

$42 + 43 =$

$\boxed{} + \boxed{} \boxed{} = \boxed{}$

$47 + 48 =$

$\boxed{} + \boxed{} \boxed{} = \boxed{}$

Unless otherwise stated, we expect your child to complete these tasks independently. Please see your child's class teacher if you have any further questions on this particular piece of homework or to find out how to provide additional support/extension work.

This homework is due back to school on **Friday**.
