Thames View Infants
Computing Scheme of Work

Year 1

Programme of study	Learning Intentions
Term 3A **Introduction to Modelling** This unit builds on previous work with a range of ICT resources. These might include a painting program or a word processor that allows pictures to be imported. The unit assumes that pupils: • have sufficient mouse control to select and drag using objects and tools • have used a simple objects-based graphics program to • communicate information • have used a simple painting program to create pictures.	I can insert a picture into my document. I will know how to format the text. I will know how to use various programs on the PC (Easiteach/Colour Magic). I will know how to copy and paste an image from Google images into PowerPoint. I will know how to save my work in **the correct** folder. I will know that computers are different from real life. I will use the return key to insert line breaks in the text. I will open a file and use the stamp and UNDO tools. I will know how to write and follow instructions.
