**Year One Maths Homework**

*This homework relates to Maths work covered in class this week. Children are learning to give change from 10p. Help children to apply their knowledge of 'number bonds of 10' when working out how much change to give (for example: children know that '4+6=10' and should apply this when calculating '10-6=4'). Encourage children to select as few coins as possible when deciding on what coins to use.*
## Change from 10p

**How much change will you get from 10p? Draw around the coins you need.**

**7p**   10p-7p=3p

**6p**

**8p**

**5p**

**9p**

**4p**

*Unless otherwise stated, we expect your child to complete these tasks independently. Please see your child's class teacher if you have any further questions on this particular piece of homework or to find out how to provide additional support/extension work.*

This homework is due back to school on Friday.
