Year Two Maths Homework

This homework relates to Maths work covered in class this week. Children are encouraged to show 'working out' to help them complete calculations. Children have been taught a variety of strategies to calculate sums similar to the ones shown below in class. Talk to children whilst completing the below questions in order to check they are sure of the strategy they are using.

Choose the right strategy!	Calculate these sums. Use the space to show your working out.	
125 + 123 1. 100 + 100 = 200 2. 20 + 20 = 40 3. 5 + 3 = 8 4. 200 + 40 + 8 = 248	**243 + 134**	**425 + 223**
327 + 106	**587 + 54**	**1288 + 1316**

Unless otherwise stated, we expect your child to complete these tasks independently. Please see your child's class teacher if you have any further questions on this particular piece of homework or to find out how to provide additional support/extension work.

This homework is due back to school on Friday.
