

Family Learning

“

I have learned many things regarding helping my child. The teacher is very supportive and shows us how to make learning enjoyable and how to explain things in a simple way to our children. I became more confident in helping my child .

”

Do you have children in school? Would you like to support their learning in a fun and engaging way? If so, our family learning courses are for you.

These are the Online Family Learning courses. This is an option to accommodate those parents with childcare commitments for younger children.

We offer courses to help develop the communication skills necessary to be able to talk with your child's teacher, get more from parents' evenings and help your child with homework.

Family learning provides an opportunity for you and your child to learn together and will open possibilities for the whole family.

Work and Skills

Adult College | Job Shop | Vocational Support

Providing lifelong education, skills, employment, and wellbeing achievements
