## Transparency

### **The trust must be transparent with its governance arrangements.**

2.5.1 Publishing information about governance structures

2.5.2 In the interests of transparency, an academy trust **must** publish on its website up-to-date details of its governance arrangements in a readily accessible format. This **must** include:

- the structure and remit of the members, board of trustees, its committees and local governing bodies (the trust's scheme of delegation for governance functions), and the full names of the chair of each (where applicable)
- for each member who has served at any point over the past 12 months, their full names, date of appointment, date they stepped down (where applicable), and relevant business and pecuniary interests including governance roles in other educational institutions
- for each trustee and local governor who has served at any point over the past 12 months, their full names, date of appointment, term of office, date they stepped down (where applicable), who appointed them (in accordance with the trust's articles), and relevant business and pecuniary interests including governance roles in other educational institutions. If the trust's accounting officer is not a trustee their relevant business and pecuniary interests **must** still be published.
- for each trustee their attendance records at board and committee meetings over the last academic year
- for each local governor their attendance records at local governing body meetings over the last academic year

Although this might appear clear, it is somewhat equivocal, so the following has been used as an interpretation:

Current Trustees and/or Members will be added within a reasonable length of time, at whichever point of time they are appointed.

Attendance will be updated in the autumn term for the previous academic year, as will Trustees who have not served in the last year.
